

Finger Lakes Environmental Modification Warranty

Finger Lakes Environmental (FLE) warrants this product against failure due to a defect in material and/or workmanship. Warranty covers only the portion of any unit that was worked on by FLE. Except as otherwise stated, the warranty period is one (1) year from the date of installation or eighteen (18) months from the date of manufacture which ever shall come first. FLE will provide only a new or remanufactured part, at FLE's sole discretion, to replace the failed defective part without charge. Proper documentation is required for all warranty claims.

Should a refrigerant leak occur in a FLE modification during the first thirty (30) days of operation, FLE will allow for repair based on a reasonable estimate for labor at the contractor's registered street rate X .80 plus \$50.00 field service materials and a refrigerant allowance based per current wholesale price per pound not to exceed the units listed circuit charge. Preapproval of repair cost is required. Failure to obtain FLE approval **BEFORE** repairs are made can result in denial of warranty claim. No repair cost shall ever exceed the original amount of the modification as invoiced by FLE.

WARRANTY CONDITIONS

1. Product must be installed properly and by a licensed or otherwise qualified HVAC technician.
2. Warranty applies only to products remaining in their original installation location.
3. Installation, use, care and maintenance must be normal and in accordance with instructions contained in the Installation Instructions, Owner's Manual and/or Company's service information.
4. Application for leak repair must be accompanied by a photograph or detailed graphic description pin-pointing the location of said leak.
5. In no event shall the cost of any warranty claim exceed the cost of the original modification.
6. While it is the policy of FLE to stand behind our work, we require **PREAPPROVAL** of all repair costs and proper documentation for all warranty claims. Failure to obtain FLE approval **BEFORE** repairs are made can result in denial of warranty claim.
